

# Car travel inflatable mattress

Are you planning for a long distance road trip, hiking, festival or simply going camping? chances are you would need something to lie on or sleep afterwards. The Car travel inflatable mattress is a is your perfect solution in these cases where you need a bed and are also looking to pack as lightly as possible. The mattress is by default deflated but can be inflated into an adult-sized mattress that can function as both a bed and as a sofa. The mattress also comes with 2 inflatable pillows to ensure that your rest is comfortable and a security cushion system for kids. The amazing mattress will turn your back seat into a comfortable bed space and features a 12V electric pump for fast inflate or deflate. The material is made from a durable, waterproof material that is easy to clean. It also houses a repair patch and glue kit for fixing small damages that may arise. Installation is also very easy. Simply inflate and position in the back seat space of your car after adjusting the fore driver and passenger seats. For the best night rests in the car or camp sites, this slumber kit 5.91 by 3.94 by 3.15-inch mattress is the most comfortable way to go.
