ANALYSIS OF MAINTENANCE CULTURE EMPLOYED IN PUBLIC INFRASTRUCTURE IN NIGERIA.

STATEMENT OF THE PROBLEM

Public infrastructure in Nigeria lack adequate maintenance. Some of them are in very poor conditions. Facilities management can be used to improve the quality of public infrastructure.

Most estate surveyors do not give attention to facility management rather they concentrate on building management.

However, the estate surveyors should put into consideration on ways of maintaining public infrastructure in Nigeria.

AIMS OF THE STUDY

The aim of the research work is to examine the level of maintenance culture of public infrastructure in Nigeria.

OBJECTIVE OF THE STUDY

- To examine the level of maintenance culture employed in public infrastructure
- To examine the operational state of public infrastructure
- To determine factors affecting maintenance in public infrastructure.
- To ascertain the attitude of Nigeria towards maintenance culture in public infrastructure.
